## S o m e R e v i e w s

**"WE WERE WALKING WITH LEGENDS OF THE LION WORLD....IT WAS AN ENORMOUS PRIVILEGE TO WALK WITH CHRIS AND CHARLOTTE...."**

Tony Weaver, Cape Times, Insight, Friday August 8, 2008

**"It's truly wild. The night before, tucked up in a soft, cotton-rich bed, slow-roasting through the Kafue night, the reed walls of the bungalow had reverberated with the almost plaintive roar of a lone lion, not far away. An echo of challenging roars quickly followed, further to the north."**

**"McBride's is lion country, plain and simple. The lions are why Charlotte and Chris**

**moved to this untamed stamp of Kafue, and it's why the world comes to visit."**

**"A couple of days at McBride's will transport you deep into primeval bush."**

**"McBride's Bush Camp in the north of Zambia's Kafue National Park is not the sort of place you visit on the spur of the moment. But if real character, true remoteness and a love of walking with lions are what you're after, it's hard to beat".**

**GETAWAY Magazine, by Peter Frost (January 2004, and March 2004)**

### **GUEST COMMENTS**

Joe and Billy Dodson - U.S.A.

**I've made multiple trips to Africa as a photographer and have fallen in love with Kenya and Tanzania many times over. But I never realized what a true African experience was until I visited your camp. We were physically closer to the wildlife than any place I've ever been and I felt so much more a part of the land and the bush. Your kindness and friendship were the icing ... and I thank you from the heart for the time you dedicated to us on the game walks, river trips and around the campfire. Although our visit was only a few days, we now consider you and Charlotte family. We expect to return every two to three years at a minimum. Thanks again for one of the great experiences of our lives.**
